

Installation Instructions Gable Decoration: Style "L"

This gable decoration is shipped in three pieces. It will be pre-cut to the pitch specified when the order is placed. The gable decoration must be assembled before attaching it to the overhang.

Assembly Instructions

1. Begin by laying the three pieces on a flat surface.
2. Using a manual screwdriver and the 2-1/2" screws provided, attach the left side wing to the side of the center post in the pre-drilled holes. Tighten only until the screw countersinks itself. Do not over tighten.
3. Repeat step 2 for the right side wing.

Installation Instructions

4. It is recommended that you have a helper when attaching your gable decoration to the overhang and follow ladder safety recommendations.
5. Attach your gable decoration to the underside of your fascia thru the pre-drilled holes in the side wings using the 2-1/2" screws provided. Make sure the screws

set into something solid in your overhang. Depending on your particular installation, it may be necessary to obtain and install longer screws for a solid attachment. It is **not** sufficient to screw into vinyl or aluminum soffit or fascia only.

6. Fill and finish screw heads.
